

# St. Simons Island Gateway Construction Under Way

Construction has begun on the St. Simons Island Gateway Project (see diagram below left). Projected completion is late 2009. The Gateway Project is designed to improve traffic flow on to and away from St. Simons Island.

## Getting to and from Kings Way / Village Area

Beginning Thursday, March 12, the Kings Way ramp will be closed. Motorists who wish to go on Kings Way toward the St. Simons Island Village should:

1. Remain in the right-hand lane and continue to the Sea Island Road traffic signal.
2. Turn right onto Sea Island Road and continue to Kings Way.
3. Turn left onto Kings Way and proceed to the St. Simons Island Village Area / East Beach.

Leaving St. Simons Island via Kings Way is the reverse of the above.
